Chapel Hill, North Carolina  
April 21, 2006

To His Excellency  
Governor Mike F. Easley  
Raleigh, North Carolina

Dear Sir:

In compliance with Article 4, Section 90-57 of the General Statutes of North Carolina, we are pleased to submit to you and to the North Carolina Association of Pharmacists the One Hundred Twenty-Fourth Annual Report of the North Carolina Board of Pharmacy. This report contains the proceedings of the Board for the fiscal year ending September 30, 2005.

Respectfully yours,

NORTH CAROLINA BOARD OF PHARMACY  
David R. Work, Executive Director

APR 18 2007

#### Board's Effort Regarding Sending Prescription Drugs into N.C.

This fiscal year brought a continuation of the Board's enforcement effort against pharmacies sending prescription drugs into North Carolina in violation of state and federal law. One incident involved an advertisement in "Smart Source" a Sunday Newspaper supplement with coupon advertising for CanadaDrug.com. This publication is owned by NewsCorp a very large transnational corporation. The members directed Mr. Work to send a letter Smart Source noting that their activity violated state law. The members decided to this administrative action rather than litigation.

#### NC Health Care Information & Communications Alliance

The Board members heard a presentation by Holt Anderson of the North Carolina Health Care Information and Communications Alliance in October of 2004. He presented the plans for this organization to assist in developing electronic prescribing. It was the members' decision to join this organization with annual dues of two-hundred and fifty dollars.

#### Practical Exam

The Boards practical examination continued to evolve and the errors admission exam was converted to multiple-choice questions. The performance of these questions was considered superior to the prior exam format, which required candidates to move place-to-place and hand write answers on answer sheets.

#### Board Website

The Board's Website continued to improve and included the addition of Public Health Advisories. These notices will be placed on the Website and kept for six months to one year prior to being rotated off that location.

#### Management And Professional Services (MAPS) Group

Beginning in the 2004-2005 fiscal year the staff Directors will be responsible for developing job descriptions for any new employee. The MAPS Group laid the foundation for this process to be handled in-house. The Board members were in agreement on this plan.

#### Mail Order from Canada

One North Carolina pharmacist who is living in Canada proposed that the Board approve a prescription shipping business from Windsor Ontario, to patients in North Carolina. After discussing the matter thoroughly it was the members' decision to declare this practice not in conformance with state and federal law.

#### Drug Enforcement Administration (DEA) Statement

During this fiscal year, the Drug Enforcement Administration changed their policy regarding dating a prescription order. Prior to this time DEA had accepted multiple prescriptions for Schedule II drugs written on the same day and marked to be filled on a later date. In November of 2004, the DEA changed that position which caused great controversy in the treatment of pain by physicians and clinical pharmacist practitioners. DEA backed away from this statement indicating they would accept comments up until March 21, 2005. At the February 2005 meeting of the Board the members directed Mr. Work to comment on the situation and the Board's official comment is attached and made a part of this report as Appendix A.

### Critical Questions

The Board included certain critical questions in the practical exam which, if answered improperly would have harmed the patient. This would require candidates to sit for a remedial session prior to licensure. One individual in this category was unable to make the critical questions session and it was the Board's decision to require that person to wait until the June exam and subsequent remedial session prior to licensure, before licensure could occur.

During this fiscal year, an announcement occurred regarding a school of pharmacy at Elizabeth State University. A small number of slots would be allocated in the first year for pharmacy students at UNC Chapel Hill who will be in residence at Elizabeth City State University.

### Resolutions for NABP

The Board proposed three resolutions to take to the National Association of Boards of Pharmacy and they are attached to and made part of this Annual Report as Appendix B.

### Saliva Testing

The members considered the issue of pharmacists conducting saliva tests. This practice would consist of the pharmacist obtaining the results of this test and forwarding this data to the patient's physician. It was the members' consensus that this activity was within the legitimate practice of pharmacy.

### New Public Member

Tim Rogers served as the Board's Public Member from 1995 to 2005. Governor Easley appointed J. Parker Chesson, Jr., Ph.D. to replace Mr. Rogers on May 1, 2005. Dr. Chesson is a retired community college president and has extensive experience in education and state government in Raleigh. He has a daughter that is a physician and another daughter who is a pharmacist.

### Clinical Pharmacist Practitioner Records

With the advent of clinical pharmacist practitioners, some general guidelines are needed for this activity. It was the Board's consensus that for a person to be considered a clinical pharmacist practitioner they must have a clear record with the Board.

### Prescription Drugs and Tiendas

The members were quite concerned about the continued presence of prescription drugs in Tiendas which are Hispanic grocery stores. Representatives from the Department of Agriculture, which has jurisdiction over this activity, met with the Pharmacy Board to discuss appropriate actions. There was a consensus of the members that the matter be further studied prior to taking action.

### Access II Care of Western North Carolina

The members considered a proposal from Access II Care which would authorize pharmacists to dispense specific OTC drugs in response to prescriptions from a certain group of physicians. After much discussion, it was the decision of the Board to approve this practice which some people would call therapeutic substitution.

### Financial Situation

The Executive Director brought the members attention to the potential financial situation unless a fee increase is obtained during this session of the General Assembly. A hiring freeze was implemented for the administrative staff in response to the recognition of this problem.

A bill to increase the fees chargeable by the Board of Pharmacy has been introduced into the General Assembly and, after many cut-backs a version was adopted in July of this year.

### Officers Elected

In May of this year, Dr. Betty Dennis was elected President and Mrs. Rebecca Chater Vice President of the Board to serve terms through June 2005- May 2006.

### Telepharmacy

A proposal was presented to the Board which would allow a pharmacist in another state to review orders prior to the administration of drugs in hospitals in North Carolina. After a thorough discussion it was the consensus of the Board that such an operation would need to have an out-of-state pharmacy permit and the pharmacist reviewing such orders would need to have a North Carolina license.

### Executive Director Retirement Plans

In June of this year in response to Mr. Work's announcement of his planned retirement in 2006, Dr. Dennis appointed a search committee chaired by J. Parker Chesson and also included L. Stan Haywood and Dr. Dennis.

### Board Member Elections

The Board conducted an election in the spring of this year which eventually produced Board member Joey McLaughlin to replace Mr. Crocker. Votes in the election are as follows; Tim Giddens 1,083; Joey McLaughlin 1,411.

### Continued Professional Development

The members considered a proposal by Steve Caiola that as an alternative to continuing education, pharmacists should be able to set there own goals and meet challenges through a continuing professional development plan. The Accreditation Council is exploring this concept on Pharmaceutical Education and more information will be soon forthcoming.

### Drug Use by Physical Therapists

The members considered the request from Ben Massy, Executive Director of the North Carolina Physical Therapy Board, regarding compounding products. It was the members' decision that compounded products obtained for use in bulk by a consultant Physical Therapist on the order of a prescriber is allowed. It is also possible for individual prescriptions generated by a prescriber and then used by a physical therapist in Phonophoresis and Iontophoresis.

### New/Amended Rules

Rules adopted or amended for the October 1, 2004-September 30, 2005 fiscal year are included as an attachment, Appendix C.

### Regional Continuing Education Meetings

Board Members approved a portion of the budget again this fiscal year to support regional continuing education meetings around the state. The schedule of meetings was:

April 25, 2005	Waynesville
April 26, 2005	Greenville
April 28, 2005	Fayetteville
May 2, 2005	Chapel Hill
May 3, 2005	Greensboro
May 5, 2005	Charlotte

### Newsletter Items

Selected items from the Board's Newsletter are included as Appendix D. These topics are intended to be glimpses of the challenges and opportunities faced by pharmacists during this fiscal year.

### Information Required by 93B

The North Carolina Board of Pharmacy had its offices at 6015 Farrington Road, Chapel Hill, North Carolina from October 1, 2004 to September 30, 2005. During the 2004-2005 fiscal year there were 325 applicants for examination, 1 candidate did not appear and 2 candidates withdrew from the exam and the remainder took the examination for licensure. A total of 282 persons were licensed as pharmacists by examination. A total of 242 individuals were licensed by reciprocity. The Board suspended 9 licenses, with stay orders. One license to practice pharmacy was actively suspended for 7 days and 1 license was suspended for 1 day. One license was Summarily Suspended by the Board and 5 licenses were voluntarily surrendered to the Board. No other licenses were terminated for any reason other than failure to pay the required fee.

EXPRESS MAIL

Drug Enforcement Administration  
Attn: DEA Federal Register Representative/CCD  
2401 Jefferson-Davis Highway  
Alexandria, VA 22301

Dear Federal Register Representative:

Please find attached the comments of the North Carolina Board of Pharmacy for Docket No.DEA-261—Solicitation of Comments on Dispensing of Controlled Substances for the Treatment of Pain.

Very truly yours,

A handwritten signature in black ink, appearing to read "D. Work", is written over a horizontal line.

"Docket Number DEA-261

TO: Deputy Administrator of Drug Enforcement Administration  
Washington, DC 20537  
ATTN: DEA Federal Register Representative/CCD

The text below is the submission of the North Carolina Board of Pharmacy in response to the Notice dated January 11, 2005.

- I. DEA Policy prior to November 16, 2004 was developed to recognize changes in pain treatment standards such as those published by the Joint Commission on Accreditation of Healthcare Organizations.
- II. Procedures of prescribers writing multiple prescriptions with instructions to fill on future dates is a practical solution to continue therapy for stable patients while recognizing that federal law prohibits refills on prescriptions for Schedule II drugs.
- III. There has been no demonstrated need to change DEA policy on instructing pharmacists to fill prescriptions for Schedule II drugs on a future date.
- IV. The procedure of instructing pharmacists to fill prescriptions for Schedule II drugs on a future date is a proven, practical and effective way of dealing with changes in therapy as well as a federal statute which is 35 years old.
- V. The notice of November 16, 2004, if finalized would have a large and adverse effect on patients stabilized on drugs in Schedule II. It would triple or quadruple annual expenses for office visits and billings to health plans for these patients. This DEA policy should be submitted to the federal Office of Management and Budget for their opinion on its fiscal impact on Medicaid and other similar programs.
- VI. The North Carolina Board of Pharmacy urges DEA to establish an advisory committee of practicing pharmacists, physicians and other experts, similar to the practice of the Food and Drug Administration, to review and make recommendations on any proposed changes in federal statute, regulations or policy which affects the practices of medicine or pharmacy.
- VII. The North Carolina Board of Pharmacy requests that DEA reaffirm their policy in effect prior to November 16, 2004.

## RESOLUTIONS

WHEREAS many pharmaceutical companies participate in patient assistance programs providing pharmaceuticals to low income patients, and

WHEREAS there are inconsistencies in the operation of these programs, and

WHEREAS some of these programs function contrary to state pharmacy law

### THEREFORE BE IT RESOLVED

That NABP work with the Pharmaceutical Research and Manufacturers Association to bring all manufacturer sponsored programs into compliance with state pharmacy law.

\*\*\*\*\*

WHEREAS the November 16, 2004 announcement by DEA on prescriber dating of prescriptions for Schedule II controlled substance prescriptions caused substantial confusion among pharmacists, physicians, and patients, and

WHEREAS the public was not well served by the delays and disruptions in therapy from this event, and

WHEREAS these events could have been avoided if DEA had shared their plans with informed practitioners prior to announcing a policy change,

### THEREFORE BE IT RESOLVED

That NABP work with DEA to establish an advisory committee of pharmacists, physicians and other informed experts to review or initiate changes in DEA policy or proposed changes in federal regulations or statute related to controlled substances.

\*\*\*\*\*

WHEREAS electronic communications is emerging as an important method of transmitting prescription orders, and

WHEREAS security and accuracy in ordering pharmaceuticals is a primary concern of pharmacy boards in protecting the public health and safety

WHEREAS state boards of pharmacy need guidance in this important area, and

THEREFORE BE IT RESOLVED THAT

NABP form a task force to consider the necessary elements in electronic prescribing including appropriate provisions for electronic signatures.

**21 NCAC 46 .1414 DRUG DISTRIBUTION AND CONTROL****(a) MEDICATION ORDERS.**

- (1) Pharmacists shall dispense medications from a health care facility pharmacy only upon receipt of a medication order. A mechanism shall be in place to verify the authenticity of the medication order. Oral orders shall be put in writing immediately and signed within the time frame established by regulatory agencies and health care facility policies and procedures.
- (2) All medication orders shall be received and reviewed by a pharmacist and, at a minimum, shall contain the:
  - (A) patient's name, location and other necessary identifying information such as history or medical records number;
  - (B) medication name, strength, dosage form, route of and directions for administration. In the absence of a facility policy on interpretation of routes of administration, the route of administration must be specified;
  - (C) date the order was written; and
  - (D) prescriber's signature as set out in Subparagraph (a)(1) of this Rule (may include electronic signature or verification).
- (3) The health care facility pharmacy and the pharmacist-manager shall ensure that medication orders for patients requiring continuous drug therapy shall be entered into a patient medication profile, either manual or automated. The medication profile shall, at a minimum, contain the:
  - (A) patient's name, location and important clinical data such as age, height, weight, sex, and allergies;
  - (B) medication name, strength, dosage form, route of and directions for administration;
  - (C) medication start date;
  - (D) medication discontinuance date; and
  - (E) identification of pharmacist responsible for or verifying technician entry of the medication order.
- (4) Abbreviations used in medication orders shall be agreed to, jointly adopted, and published by the medical, nursing, pharmacy, and medical records staff of the health care facility.
- (5) Medication orders shall be reviewed and discontinued or suspended, if appropriate, when the patient is transferred to the delivery room, operating room, or is admitted from another facility. A method to protect the patient from indefinite, open-ended drug orders must be provided. The prescriber shall be notified in a timely manner that the order shall be stopped before such action takes place by one or more of the following:
  - (A) the routine monitoring of patient's drug therapy by a pharmacist;
  - (B) a health care facility-approved, drug class-specific, automatic stop order policy covering those drug orders not specifying a number of doses or duration of therapy; or
  - (C) a health care facility-approved automatic cancellation of all drug orders after a predetermined time interval unless rewritten by the prescriber.
- (6) Health care facilities which credential practitioners for prescribing privileges within the facility shall provide the health care facility pharmacy with credentialing information annually or immediately upon discharge or when privileges are suspended or terminated.

(b) **DEVICES.** Devices shall be dispensed in accordance with Section .2600 of this Chapter.

(c) **DISPENSING.** In health care facilities with 24 hour pharmacy services, all dispensing shall be done by a pharmacist. In health care facilities without 24 hour pharmacy services, Rule .1413 of this Section shall apply in the absence of a pharmacist.

**(d) LABELING.**

- (1) The health care facility pharmacy and the pharmacist dispensing the drug shall ensure that all drugs dispensed from within a health care facility pharmacy are labeled and identified up to the point of administration;
- (2) Whenever a drug is added to a parenteral admixture, it shall be labeled with a distinctive supplementary label indicating the name and amount of the drug added, expiration date, and expiration time, if applicable. For admixtures prepared outside the pharmacy, the pharmacist-manager shall develop policies and procedures for preparation and labeling.

(e) **PARENTERAL MEDICATIONS.** The dispensing of parenteral medications shall be done in accordance with Section .2800 of this Chapter--Sterile Parenteral Pharmaceuticals.

(f) PATIENT CARE UNIT MEDICATION INVENTORIES. This Paragraph does not apply to nursing facilities, assisted living facilities, and adult care homes.

- (1) The pharmacist-manager shall develop an approved drug list for each health care facility location. Non-controlled drugs may be stocked on a health care facility patient care unit in quantities limited to not more than five dosage units per drug when immediate availability is deemed essential to the patient's health and well-being. Drugs shall be stored in a manner that prevents unauthorized access and shall only be administered to a patient of the health care facility pursuant to a medication order.
- (2) All controlled substances stocked within a health care facility that are not located within the facility's pharmacy or automated dispensing device must be accompanied by a disposition form issued from the pharmacy. This document shall at a minimum contain:
  - (A) the product name, strength, dosage form, and quantity supplied;
  - (B) the date transferred to the patient care unit by the pharmacy;
  - (C) the name of the pharmacy representative supplying, and the patient care unit representative receiving the drug;
  - (D) the date, time, and amount of the drug removed from the patient care unit stock for administration; and
  - (E) the patient name and identification of the person acquiring the product.
- (3) Exceptions to this Paragraph shall be made for use of automated dispensing devices provided that these devices meet all applicable rules for controlled substances contained therein.
- (4) When a dose of a controlled substance has been prepared for a patient but not used (i.e., refused, order canceled, or contaminated), it may be destroyed at the patient care unit. The destruction must be witnessed by a health care provider, such as a pharmacist, registered nurse, or licensed practical nurse. The pharmacist-manager shall ensure that details of the event, along with the identification of the two who effected and witnessed the destruction, are documented. If such record is separate from the disposition form, it shall be maintained uniformly with the corresponding disposition form.

(g) ANCILLARY DRUG CABINET INVENTORIES. (This Paragraph does not apply to nursing facilities, assisted living facilities, and adult care homes.) Drugs that are routinely prescribed by the medical staff in a health care facility shall be maintained in quantities limited to not more than five dosage units per drug as a supplementary inventory for use only when the pharmacy is closed. The pharmacist-manager shall, in connection with the appropriate committee of the health care facility, develop listings of those drugs to be included in such inventories. The pharmacist-manager shall, at a minimum, assure that:

- (1) access to such drug inventories is by locked cabinet(s) or other enclosure(s) constructed and secured to deny access to unauthorized persons;
- (2) only authorized personnel, as indicated by written policies and procedures, shall obtain access to the drug inventories;
- (3) only pre-packaged drugs are available therein, in amounts sufficient for immediate therapeutic requirements. Drugs shall be properly labeled, with drug name, strength, lot number and expiration date. Whenever access to such inventory is gained, a copy of the record of withdrawal and a copy of the written order for new drug orders shall be provided to the pharmacy. The record of withdrawal shall contain the following:
  - (A) the date of removal of the drug;
  - (B) the name, strength, dosage form, and quantity of drug removed;
  - (C) the name of the patient for whom the drug was ordered;
  - (D) the name or identification code of the authorized personnel removing the drug from inventory;
- (4) all drugs are reviewed no less often than quarterly to ensure their purity, potency, and integrity; and
- (5) written policies and procedures are established to implement the requirements of this Rule.

(h) AUTOMATED DISPENSING OR DRUG SUPPLY DEVICES. Automated Dispensing or Drug Supply Devices such as but not limited to Pyxis machines may be utilized in health care facility pharmacies and where a pharmacy permit exists in accordance with 21 NCAC 46 .1814.

(i) EMERGENCY KITS. (This Paragraph does not apply to adult care homes or assisted living facilities) Drugs and devices may be provided in emergency kits for use by authorized personnel provided the pharmacist-manager, in

conjunction with the medical staff of the health care facility, develop and implement written policies and procedures to ensure compliance with the following provisions:

- (1) the pharmacist-manager, or designee, and the medical staff of the health care facility jointly determine the drugs and devices, by identity and quantity, to be included in the kit. Drugs and devices included in the kit shall be limited to those for emergency use only and are not to be used for any other purpose.
- (2) the emergency kit contains those drugs and devices which may be required to meet the immediate therapeutic needs of patients and which are not available from any other authorized source in sufficient time to prevent prolonged discomfort or risk of harm to patients;
- (3) the emergency kit shall be stored in a secure, readily available location under the supervision of the nursing staff and sealed with a non-reusable, removable seal to prevent unauthorized access, and to ensure a proper environment for preservation of the drugs and devices within them. Policies and procedures shall be established to ensure the integrity of the kit at all times;
- (4) the exterior of the emergency kit shall be labeled so as to clearly and unmistakably indicate that it is an emergency drug kit and is for use in emergencies only. In addition, a listing of the drugs and devices contained therein, including name, strength, and quantity of each drug or device shall be attached. Each emergency kit shall be inspected by a pharmacist or his designee every 30 days (90 days for long-term care facilities) to check for expiration dates and the integrity of the seal;
- (5) all drugs and devices contained within the emergency kit shall be labeled, if applicable, with, at a minimum, the name, strength, lot number, manufacturer, and expiration date;
- (6) drugs and devices shall be removed from the emergency kit for administration to a patient only pursuant to a valid physician's order, by personnel authorized by the facility;
- (7) whenever an emergency kit is opened, the pharmacy shall be notified. The pharmacist-manager or designee shall re-stock, re-seal, and return the kit to the unit within a reasonable length of time in order to prevent risk of harm to patients. The emergency drug kits shall be checked by an authorized person in accordance with written policies and procedures of the health care facility. In the event the kit is opened in an unauthorized manner, the pharmacy and other personnel designated by the pharmacist-manager of the facility shall be notified; and
- (8) Emergency drugs that are controlled substances must be stored in compliance with 10A NCAC 26E .0408.

(j) RECORDS.

- (1) The pharmacist-manager shall, in addition to the requirements for preserving prescription orders as set forth in G.S. 90-85.26, develop a system of daily accountability for medication compounding and dispensing that shall permit the identification of the responsible pharmacists and pharmacy technicians. Readily retrievable records of accountability shall be maintained for at least 30 days. At a minimum, this system shall identify all personnel who perform these activities and the pharmacist responsible for:
  - (A) interpretation and appropriateness of new medication orders;
  - (B) profile entry of new medication orders;
  - (C) dispensing of new medication orders including stat doses;
  - (D) daily cart fills;
  - (E) intravenous admixtures;
  - (F) compounded medications; and
  - (G) periodically assessing the quality of pharmacy procedures for preparation and release of drugs and devices for replenishment of floor stock, ancillary drug supplies, and automated dispensing devices in locations outside the pharmacy.
- (2) Upon notification of medication errors resulting from the administration of an incorrect medication or dose, the pharmacist-manager shall document such medication error. Documentation shall include pertinent chronological information and include documentation on health care facility forms. These documents shall be archived in a readily retrievable manner, open for inspection, for a period of three years.
- (3) Upon notification of information that reasonably suggests that there is a probability a prescription drug or device dispensed from a location holding a permit has caused or contributed to the death of a patient (see 21 NCAC 46 .2502(k) RESPONSIBILITY OF PHARMACIST-MANAGER), the pharmacist-manager shall retain all documents, labels, vial, supplies, substances and internal

- investigative reports relating to the event. All such items shall be maintained by the health care facility, accessible to the pharmacist-manager, and open to the Board of Pharmacy.
- (4) The pharmacist-manager shall maintain records of ordering, receiving, dispensing or transfer of controlled substances. These records shall include, but are not limited to the following:
- (A) Invoices or other such documents verifying the ordering and receipt of controlled substances;
  - (B) Perpetual inventories of controlled substances transferred to patient care units and other sites as allowed by this Rule (i.e., automated dispensing devices, emergency kits, etc.). These inventories shall record the transfer date; location transferred to; the identity of the drug; strength, dosage form, and quantity transferred; transferring pharmacist's name;
  - (C) Disposition records required by Paragraph (f)(4) of this Rule;
  - (D) A record of controlled substances dispensed directly to the patient to include the patient's name; date dispensed; dispensing pharmacist's name; name, strength, dosage form, and quantity of the drug dispensed. The records shall also document drugs returned and credited; and
  - (E) A perpetual inventory shall be maintained on all controlled substances awaiting destruction or return to a vendor.
- (5) Automated systems may be used to collect and store information required by Subparagraph (j)(4) of this Rule provided such system allows for the immediate retrieval (via CRT display and hard-copy printout) of original medication order information and dispensing history consistent with criteria cited in 21 CFR .1306.
- (6) With the exception of Subparagraph (j)(l) of this Rule, all records required by this Section shall be maintained for a period of three years. Such records shall be archived in a uniform manner, retrievable to the pharmacy within 48 hours, and open for review, copying, or seizure by a member or designated employee of the Board.

**21 NCAC 46 .1602            LICENSE BY RECIPROCITY**

(a) An applicant for licensure without examination, must have:

- (1) Originally been licensed as a pharmacist by an examination equivalent to the North Carolina examination specified in Rule .1505(a)(1) of this Chapter;
- (2) Achieved scores on an equivalent examination, such as the NABPLEX examination, which would qualify for licensure in this state at the time of examination; and
- (3) Been licensed by a state which deems licensees from this state to be equivalent to the extent that they are suitable for licensure in that state without further substantial examination.

(b) All applicants shall submit to the Board a signed release form, completed Fingerprint Record Card, and such other form(s) required to perform a criminal history check at the time of application.

(c) The Board shall require an applicant for licensure without examination who has not practiced pharmacy within two years prior to application to obtain additional continuing education, practical pharmacy experience, successfully complete one or more parts of the Board's licensure examination, or a combination of the foregoing, as the Board deems necessary to ensure that the applicant can safely and properly practice pharmacy.

(d) The Board shall also restrict licenses granted pursuant to this Rule for such period of time as the Board deems necessary to ensure that the applicant can safely and properly practice pharmacy.

*History Note:        Authority G.S. 90-85.6; 90-85.20;*

*Eff. April 1, 1983;*

**21 NCAC 46 .1612 REINSTATEMENT OF LICENSES AND PERMITS**

- (a) All licenses renewed after March 1 are subject to the maximum original fee set out in G.S. 90-85.24 for applicants for licensure. All permits renewed after March 1 are subject to the original registration fee.
- (b) All applicants shall submit to the Board a signed release form, completed Fingerprint Record Card, and such other form(s) required to perform a criminal history check at the time of application.
- (c) The Board shall require applicants for reinstatement pursuant to G.S. 90-85.19 to obtain additional practical experience and continuing education.
- (d) The Board shall also restrict licenses reinstated pursuant to G.S. 90-85.19 for such period of time as the Board deems necessary to assure that the applicant can safely and properly practice pharmacy.

*History Note: Authority G.S. 90-85.19; 90-85.24;  
Eff. April 1, 1999;  
Amended Eff. July 1, 2005.*

## SECTION .2200 - CONTINUING EDUCATION

### 21 NCAC 46 .2201      HOURS: RECORDS: PROVIDERS: CORRESPONDENCE: RECIPROCITY

(a) As a condition of license renewal, each pharmacist shall report on renewal forms the hours of continuing education obtained during the preceding year. Annual accumulation of ten hours is considered satisfactory to meet the quantitative requirement of this Rule.

(b) All records, reports of accredited hours and certificates of credit shall be kept at the pharmacist's regular place of practice for verification by inspectors during regular or other visits. The Board may require submission of such documentation on a random basis. Pharmacists who do not practice regularly at one location shall produce such records within 24 hours of a request from Board authorized personnel. All records of hours and certificates of credit shall be preserved for at least three years.

(c) All continuing education shall be obtained from a provider approved by the Board. In order to receive credit, continuing education courses shall have the purpose of increasing the participant's professional competence and proficiency as a pharmacist. At least five hours of the continuing education credits must be obtained through contact programs in any calendar year. Contact programs are those programs in which there is an opportunity for live two-way communication between the presenter and attendee.

(d) Continuing education shall not serve as a barrier to reciprocity; however all licensees by reciprocity must observe the continuing education standards specified in (a), (b) and (c) of this Rule within the first renewal period after licensure in this state.

*History Note:*      *Authority G.S. 90-85.6; 90-85.17; 90-85.18;*

*Eff. January 1, 1985;*

*Amended Eff. April 1, 2005; August 1, 2004; August 1, 1998; September 1, 1993; May 1, 1989.*

**21 NCAC 46 .2502****RESPONSIBILITIES OF PHARMACIST-MANAGER**

- (a) The pharmacist-manager shall assure that prescription legend drugs and controlled substances are safe and secure within the pharmacy.
- (b) The pharmacist-manager employed or otherwise engaged to supply pharmaceutical services may have a flexible schedule of attendance but shall be present for at least one-half the hours the pharmacy is open or 32 hours a week, whichever is less.
- (c) Whenever a change of ownership or change of pharmacist-manager occurs, the successor pharmacist-manager shall complete an inventory of all controlled substances in the pharmacy within 10 days. A written record of such inventory, signed and dated by the successor pharmacist-manager, shall be maintained in the pharmacy with other controlled substances records for a period of three years.
- (d) The pharmacist-manager shall develop and implement a system of inventory record-keeping and control which will enable that pharmacist-manager to detect any shortage or discrepancy in the inventories of controlled substances at that pharmacy at the earliest practicable time.
- (e) The pharmacist-manager shall maintain complete authority and control over any and all keys to the pharmacy and shall be responsible for the ultimate security of the pharmacy. A pharmacy shall be secured to prohibit unauthorized entry if no pharmacist will be present in the pharmacy for a period of 90 minutes or more.
- (f) These duties are in addition to the specific duties of pharmacist-managers at institutional pharmacies and pharmacies in health departments as set forth in the Rules in this Chapter.
- (g) A person shall not serve as pharmacist-manager at more than one pharmacy at any one time except for limited service pharmacies.
- (h) When a pharmacy is to be closed permanently, the pharmacist-manager shall inform the Board and the United States Drug Enforcement Administration of the closing, arrange for the proper disposition of the pharmaceuticals and return the pharmacy permit to the Board's offices within 10 days of the closing date. If possible, notice of the closing shall be given to the public by posted notice at the pharmacy at least 30 days prior to the closing date and 15 days after the closing date. Such notice shall notify the public that prescription files may be transferred to a pharmacy of the patient's or customer's choice during the 30 day period prior to the closing date. During the 30 day period prior to the closing date, the pharmacist-manager, and the pharmacy's owner (if the owner is other than the pharmacist-manager), shall transfer prescription files to another pharmacy chosen by the patient or customer, upon request. Absent specific instructions from the patient or customer, the pharmacist-manager, and the pharmacy's owner (if the owner is other than the pharmacist-manager), shall transfer prescription files to another pharmacy for maintenance of patient therapy and shall inform the public of such transfer by posted notice at the pharmacy for 15 days after the closing date, if possible. Controlled substance records shall be retained for the period of time required by law.
- (i) If possible, the pharmacist-manager shall ensure that notice of the temporary closing of any pharmacy for more than 14 consecutive days is given to the public by posted notice at the pharmacy at least 30 days prior to the closing date, and 15 days after the closing date. Such notice shall notify the public that prescription files may be transferred to a pharmacy of the patient's or customer's choice during the 30 day period prior to the closing date. During the 30 day period prior to the closing date, the pharmacist-manager, and the pharmacy's owner (if the owner is other than the pharmacist-manager), shall transfer prescription files to another pharmacy chosen by the patient or customer, upon request.
- (j) The pharmacist-manager shall prepare a plan to safeguard prescription records and pharmaceuticals in the event of a natural disaster such as hurricane or flood.
- (k) The pharmacist-manager shall separate from the dispensing stock all drug products more than six months out of date.
- (l) The pharmacist-manager shall report to the Board of Pharmacy information that reasonably suggests that there is a probability that a prescription drug or device dispensed from a location holding a permit has caused or contributed to the death of a patient or customer. This report shall be filed in writing on a form provided by the Board within 14 days of the owner representative or pharmacist-manager's becoming aware of the event. The pharmacist-manager shall retain all documents, labels, vials, supplies, substances and internal investigative reports relating to the event. All such items shall be made available to the Board upon request.
- (m) The Board shall not disclose the identity of a pharmacist-manager who makes a report under Paragraph (l) of this Rule, except as required by law. All reports made under Paragraph (l) of this Rule shall not be released except as required by law.
- (n) Dispensing errors which are not detected and corrected prior to the patient receiving the medication shall be documented and reported to the pharmacist-manager. Documentation shall include pertinent chronological information and appropriate forms including the identity of individual(s) responsible. These documents, including

action taken as part of a quality assurance plan, shall be archived in a readily retrievable manner and open for review, copying or seizure by the Board or its designated employees within 48 hours of a request for inspection for a period of three years. These documents shall be released only to the Board or its designated employees pursuant to an investigation and shall not otherwise be released except as required by law. Upon request by the Board or its designated employees, these documents shall be transmitted by the pharmacist-manager to an office of the Board.

(o) In any Board proceeding, the Board shall consider compliance with Paragraphs (l) and (n) of this Rule as a mitigating factor and noncompliance with Paragraphs (l) and (n) of this Rule as an aggravating factor.

(p) The pharmacist-manager shall ensure that all starter doses of medication supplied to doctors' offices from the pharmacy are accompanied by written materials advising the patient that such doses of medication may be supplied by any pharmacy. Starter doses shall be limited to a 24 hour dose supply per patient.

*History Note: Authority G.S. 90-85.6; 90-85.21; 90-85.25; 90-85.26; 90-85.32;*

## **21 NCAC 46 .2507 ADMINISTRATION OF VACCINES BY PHARMACISTS**

(a) Purpose. The purpose of this Rule is to provide standards for pharmacists engaged in the administration of influenza and pneumococcal vaccines as authorized in G.S. 90-85.3(r) of the North Carolina Pharmacy Practice Act.

(b) Definitions. The following words and terms, when used in this Rule, shall have the following meanings, unless the context indicates otherwise.

- (1) "ACPE" means Accreditation Council for Pharmacy Education.
- (2) "Administer" means the direct application of a drug to the body of a patient by injection, inhalation, ingestion, or other means by:
  - (A) a pharmacist, an authorized agent under his/her supervision, or other person authorized by law; or
  - (B) the patient at the direction of a physician or pharmacist.
- (3) "Antibody" means a protein in the blood that is produced in response to stimulation by a specific antigen. Antibodies help destroy the antigen that produced them. Antibodies against an antigen usually equate to immunity to that antigen.
- (4) "Antigen" means a substance recognized by the body as being foreign; it results in the production of specific antibodies directed against it.
- (5) "Board" means the North Carolina Board of Pharmacy.
- (6) "Confidential record" means any health-related record that contains information that identifies an individual and that is maintained by a pharmacy or pharmacist such as a patient medication record, prescription drug order, or medication order.
- (7) "Immunization" means the act of inducing antibody formation, thus leading to immunity.
- (8) "Medical Practice Act" means G.S. 90-1, et seq.
- (9) "Physician" means a currently licensed M.D. or D.O. with the North Carolina Medical Board who is responsible for the on-going, continuous supervision of the pharmacist pursuant to written protocols between the pharmacist and the physician.
- (10) "Vaccination" means the act of administering any antigen in order to induce immunity; is not synonymous with immunization since vaccination does not imply success.
- (11) "Vaccine" means a specially prepared antigen, which upon administration to a person may result in immunity.
- (12) Written Protocol—A physician's written order, standing medical order, or other order or protocol. A written protocol must be prepared, signed and dated by the physician and pharmacist and contain the following:
  - (A) the name of the individual physician authorized to prescribe drugs and responsible for authorizing the written protocol;
  - (B) the name of the individual pharmacist authorized to administer vaccines;
  - (C) the immunizations or vaccinations that may be administered by the pharmacist;
  - (D) procedures to follow, including any drugs required by the pharmacist for treatment of the patient, in the event of an emergency or severe adverse reaction following vaccine administration;
  - (E) the reporting requirements by the pharmacist to the physician issuing the written protocol, including content and time frame;
  - (F) locations at which the pharmacist may administer immunizations or vaccinations; and
  - (G) the requirement for annual review of the protocols by the physician and pharmacist.

### **(c) Policies and Procedures.**

- (1) Pharmacists must follow a written protocol as specified in Subparagraph (b)(12) of this Rule for administration of influenza and pneumococcal vaccines and the treatment of severe adverse events following administration.
- (2) The pharmacist administering vaccines must maintain written policies and procedures for handling and disposal of used or contaminated equipment and supplies.
- (3) The pharmacist or pharmacist's agent must give the appropriate, most current vaccine information regarding the purpose, risks, benefits, and contraindications of the vaccine to the patient or legal representative with each dose of vaccine. The pharmacist must ensure that the patient or legal representative is available and has read, or has had read to him or her, the information provided and has had his or her questions answered prior to administering the vaccine.
- (4) The pharmacist must report adverse events to the primary care provider as identified by the patient.

- (5) The pharmacist shall not administer vaccines to patients under 18 years of age.
- (6) The pharmacist shall not administer the pneumococcal vaccine to a patient unless the pharmacist first consults with the patient's primary care provider. In the event the patient does not have a primary care provider, the pharmacist shall not administer the pneumococcal vaccine to the patient.
- (7) The pharmacist shall report all vaccines administered to the patient's primary care provider and report all vaccines administered to all entities as required by law, including any State registries which may be implemented in the future.

(d) Pharmacist requirements. Pharmacists who enter into a written protocol with a physician to administer vaccines shall:

- (1) hold a current provider level cardiopulmonary resuscitation (CPR) certification issued by the American Heart Association or the American Red Cross or equivalent;
- (2) successfully complete a certificate program in the administration of vaccines accredited by the Centers for Disease Control, the ACPE or a similar health authority or professional body approved by the Board;
- (3) maintain documentation of:
  - (A) completion of the initial course specified in Subparagraph (2) of this Paragraph;
  - (B) three hours of continuing education every two years beginning January 1, 2006, which are designed to maintain competency in the disease states, drugs, and administration of vaccines;
  - (C) current certification specified in Subparagraph (1) of this Paragraph;
  - (D) original written physician protocol;
  - (E) annual review and revision of original written protocol with physician;
  - (F) any problems or complications reported; and
  - (G) items specified in Paragraph (g) of this Rule.

(e) Supervising Physician responsibilities. Pharmacists who administer vaccines shall enter into a written protocol with a supervising physician who agrees to meet the following requirements:

- (1) be responsible for the formulation or approval and periodic review of the physician's order, standing medical order, standing delegation order, or other order or written protocol and periodically review the order or protocol and the services provided to a patient under the order or protocol;
- (2) be accessible to the pharmacist administering the vaccines or be available through direct telecommunication for consultation, assistance, direction, and provide back-up coverage;
- (3) review written protocol with pharmacist at least annually and revise if necessary; and
- (4) receive a periodic status report on the patient, including any problem or complication encountered.

(f) Drugs. The following requirements pertain to drugs administered by a pharmacist:

- (1) Drugs administered by a pharmacist under the provisions of this Rule shall be in the legal possession of:
  - (A) a pharmacy, which shall be the pharmacy responsible for drug accountability, including the maintenance of records of administration of the immunization or vaccination; or
  - (B) a physician, who shall be responsible for drug accountability, including the maintenance of records of administration of the immunization or vaccination;
- (2) Drugs shall be transported and stored at the proper temperatures indicated for each drug;
- (3) Pharmacists while engaged in the administration of vaccines under written protocol, may have in their custody and control the vaccines identified in the written protocol and any other drugs listed in the written protocol to treat adverse reactions; and
- (4) After administering vaccines at a location other than a pharmacy, the pharmacist shall return all unused prescription medications to the pharmacy or physician responsible for the drugs.

(g) Record Keeping and Reporting.

- (1) A pharmacist who administers any vaccine shall maintain the following information, readily retrievable, in the pharmacy records regarding each administration:
  - (A) The name, address, and date of birth of the patient;
  - (B) The date of the administration;
  - (C) The administration site of injection (e.g., right arm, left leg, right upper arm);
  - (D) Route of administration of the vaccine;

- (E) The name, manufacturer, lot number, and expiration date of the vaccine;
- (F) Dose administered;
- (G) The name and address of the patient's primary health care provider, as identified by the patient; and
- (H) The name or identifiable initials of the administering pharmacist.

- (2) A pharmacist who administers vaccines shall document annual review with physician of written protocol in the records of the pharmacy that is in possession of the vaccines administered.

(h) Confidentiality.

- (1) The pharmacist shall comply with the privacy provisions of the federal Health Insurance Portability and Accountability Act of 1996 and any rules adopted pursuant to this act.
- (2) The pharmacist shall comply with any other confidentiality provisions of federal or state laws.
- (3) Violations of this Rule by a pharmacist shall constitute grounds by the Board to initiate disciplinary action against the pharmacist.

*History Note: Authority G.S. 90-85.3; 90-85.6;*  
*Eff. April 1, 2003;*  
*Emergency Amendment Eff. May 11, 2004;*  
*Temporary Amendment approved by RRC October 21, 2004;*  
*Amended Eff. November 1, 2005; November 1, 2004.*

For purposes of these Rules, the following terms are defined as follows:

- (1) Authentication of Product History. Identifying the purchasing source, the ultimate fate, and any intermediate handling of any component of a radiopharmaceutical or other radioactive drug.
- (2) Nuclear Pharmacy. A pharmacy holding a permit issued by the North Carolina Board of Pharmacy and licenses issued by the Nuclear Regulatory Commission (NRC) and other state regulatory agencies, where prescriptions for radiopharmaceutical products are filled, compounded, or dispensed.
- (3) Nuclear Pharmacy Practice. A patient-oriented service that embodies the scientific knowledge and professional judgment required to improve and promote health through the assurance of the safe and efficacious use of radiopharmaceuticals.
- (4) Nuclear Pharmacy Technician. Any person involved in the dispensing of a radiopharmaceutical, not satisfying the definition of Qualified Licensed Professional; any such person must be registered as a Pharmacy Technician with the State Board of Pharmacy.
- (5) Qualified Licensed Professional. A non-pharmacist possessing a valid license issued by the North Carolina Medical Board, the North Carolina Board of Nursing, the North Carolina Dental Board or the North Carolina Board of Veterinary Medicine, and who has sufficient training and experience to safely handle and dispense radiopharmaceuticals as defined by the respective requirements of the regulations of the NRC or the state nuclear regulatory agencies.
- (6) Qualified Nuclear Pharmacist. A pharmacist currently licensed by the Board who meets the following standards:
  - (a) Certification as a nuclear pharmacist by the "Board of Pharmaceutical Specialties"; or
  - (b) Meets minimum standards of training for "authorized user status" of radioactive material in accordance with the licensure guide of the United States Nuclear Regulatory Commission or the appropriate state nuclear regulatory agencies as follows:
    - (i) Has received a minimum of 200 contact hours of instruction in nuclear pharmacy and the safe handling and use of radioactive materials from an approved college of pharmacy, including instruction in the following areas: radiation physics and instrumentation; radiation protection; mathematics of radioactivity; radiation biology; and radiopharmaceutical chemistry; and
    - (ii) Has a minimum of 500 hours of clinical nuclear pharmacy training under the supervision of a qualified nuclear pharmacist.
- (7) Radiopharmaceutical Quality Assurance. The performance of appropriate chemical, biological and physical tests on potential radiopharmaceuticals and the interpretation of the resulting data to determine their suitability for use in humans and animals, including internal test assessment, authentication of product history and the keeping of proper records.
- (8) Radiopharmaceuticals. Radioactive drugs shall include any article that exhibits spontaneous decay or disintegration of an unstable atomic nucleus, usually accompanied by the emission of ionizing radiation and any nonradioactive reagent kit or nuclide generator that is intended for use in the preparation of any such article.
- (9) Radiopharmaceutical Service. The procurement, storage, handling, preparation, labeling, quality assurance testing, dispensing, delivery, record-keeping and disposal of radiopharmaceuticals and other radioactive materials.
- (10) Test Assessment. Conducting quality assurance evaluation necessary to ensure the integrity of the test.

*History Note:* Authority G.S. 90-85.6; 90-85.34;  
Eff. October 1, 1990;  
Amended Eff. February 1, 2005.

## 21 NCAC 46 .2703

In order to obtain a nuclear pharmacy permit, the person seeking such a permit shall submit an application to the Board certifying that he or she is a pharmacist currently licensed by the Board and that he or she is a qualified nuclear pharmacist as defined in Rule .2702 of this Section. The application shall describe the location, time and manner by which the contact hours required by Rule .2702(6) of this Section were obtained by the applicant and shall be submitted under oath.

*History Note:* Authority G.S. 90-85.6; 90-85.34;  
Eff. October 1, 1990;  
Amended Eff. February 1, 2005.

- (a) The permit to operate a pharmacy providing radiopharmaceutical services shall be issued by the Board only to a qualified nuclear pharmacist. All personnel performing tasks in the preparation and distribution of radiopharmaceuticals shall be under the direct supervision of a qualified nuclear pharmacist. A qualified nuclear pharmacist shall be responsible for all operations of the pharmacy related to radiopharmaceutical services and shall be in personal attendance at all times that the pharmacy renders radiopharmaceutical services.
- (b) In emergency situations, and in the absence of a qualified nuclear pharmacist, designated qualified licensed professionals as identified by the pharmacist-manager in established written policies and procedures may have access to the area designated as the nuclear pharmacy area, and these individuals may prepare single doses of radiopharmaceuticals for the immediate emergency only and must document such activities.
- (c) The nuclear pharmacy area shall be secured from entry by unauthorized personnel as identified by the pharmacist-manager in established written policies and procedures.
- (d) Nuclear pharmacies shall maintain records of acquisition, inventory and disposition of all radiopharmaceuticals in accordance with Section .2300 of this Chapter and the applicable regulations of the North Carolina Division of Radiation Protection.
- (e) All pharmacies handling radiopharmaceuticals shall provide a radioactive storage and product decay area that provides sufficient protection from radioactivity of all areas surrounding the nuclear pharmacy area. Floor plans shall be submitted and approved by the Board staff before a nuclear pharmacy permit is issued.
- (f) Radiopharmaceuticals are to be dispensed only upon a prescription or medication order from a licensed medical practitioner authorized to possess, use and administer radiopharmaceuticals.
- (g) The library of a nuclear pharmacy shall contain, in addition to the volumes required by Rule .1601(a)(3) of this Chapter, copies of current state and federal regulations governing the safe storage, handling, use, dispensing, transport, and disposal of radiopharmaceuticals.
- (h) All pharmacies performing Radiopharmaceutical Services shall have in effect a procedures manual setting forth the procedures and policies of the pharmacy regarding Radiopharmaceutical Quality Assurance. This manual shall at all times be readily available for review by Board personnel.
- (i) Permit holders must obtain licensure from the North Carolina Division of Radiation Protection and the number of that license. Copies of the Division's inspection report shall be made available upon request for inspection by Board personnel.

*History Note:* Authority G.S. 90-85.6; 90-85.34;  
Eff. October 1, 1990;  
Amended Eff. February 1, 2005.

**21 NCAC 46 .2705 LABELING REQUIREMENTS OF RADIOPHARMACEUTICALS**

(a) In addition to other labeling requirements of the Board for non-radioactive drugs described in this Chapter, the container of a radiopharmaceutical shall also be labeled with:

- (1) The standard radiation symbol;
- (2) The words "CAUTION - RADIOACTIVE MATERIALS";
- (3) The radionuclide of the radiopharmaceutical contained therein;
- (4) The chemical form of the radiopharmaceutical contained therein;
- (5) The amount of radioactivity of the radiopharmaceutical contained therein and the date and time of the calibration of that radioactivity;
- (6) The date and time of the expiration of the radiopharmaceutical contained therein;
- (7) If the radiopharmaceutical is a liquid, the volume;
- (8) If the radiopharmaceutical is a solid, the number of capsules or weight contained therein;
- (9) If the radiopharmaceutical is a gas, the number of ampules, vials, or syringes contained therein;
- (10) The name, address and telephone number of the nuclear pharmacy dispensing the radiopharmaceutical;
- (11) The prescription or lot number; and
- (12) The name of the pharmaceutical.

(b) No radiopharmaceutical may be dispensed unless a tamper-evident seal is applied and a label is affixed to the delivery container of each dose bearing the following information:

- (1) The standard radiation symbol.
- (2) The words "Caution - Radioactive Material."
- (3) The radionuclide and chemical form.
- (4) The volume if in liquid form.
- (5) The requested activity and the calibration date and time.
- (6) The prescription number.
- (7) Labels for radiolabeled blood components and therapeutic dosages must always contain the patient's name at the time of dispensing.  
Where the patient's name is not available at the time of dispensing for diagnostic dosing, a 72-hour exemption is allowed to obtain the name of the patient. No later than 72 hours after dispensing the radiopharmaceutical, the patient's name must be associated with the prescription in a readily retrievable manner and must be retained for a period of three years.
- (8) The name and address of the nuclear pharmacy.
- (9) The name of the end authorized user, must also be a prescriber.
- (10) The lot number of the preparation.

*History Note: Authority G.S. 90-85.6; 90-85.34;  
Eff. January 1, 2005.*

**21 NCAC 46 .2706**

**PROHIBITIONS**

- (a) No person shall utilize unit-dose transport containers for radioactive dosages without an effective mechanism to avoid contamination of the transport container with blood or other biohazardous substances.
- (b) No person shall re-use a unit-dose transport container that has been contaminated with blood or other biohazardous substances. Any unit-dose transport container that is returned with the tamper-evident seal broken and the unit-dose syringe included must be considered to be contaminated.

*History Note:* Authority G.S. 90-85.6; 90-85.34;  
Eff. January 1, 2005.

## SECTION .3300 – REGISTRATION OF A PHARMACY TECHNICIAN

### 21 NCAC 46 .3301 REGISTRATION

- (a) Following initial registration with the Board, registration of a pharmacy technician shall be renewed annually and shall expire on December 31. It shall be unlawful to work as a pharmacy technician more than 60 days after expiration of the registration without renewing the registration. A registration expired more than 60 days may be renewed upon written request and upon payment of the registration fee and a data processing fee of eleven dollars (\$11.00).
- (b) The current registration of a pharmacy technician shall be readily available for inspection by agents of the Board.
- (c) The training program described in G.S. 90-85.15A(b) is not required for students enrolled in a community college pharmacy technician program.
- (d) Volunteer pharmacy technicians providing services at a facility which has a pharmacy permit designated as a free clinic shall complete the training program described in G.S. 90-85.15A(b) but need not register with the Board.
- (e) A pharmacist may not supervise more than two pharmacy technicians unless the additional pharmacy technicians have passed a national pharmacy technician certification examination administered by a provider whose examination assesses the ability of the technicians to function in accordance with G.S. 90-85.3(q2) and approved by the Board according to these standards.

*History Note:* Authority G.S. 90-85.6; 90-85.15A; 150B-19(5)(e);  
Eff. April 1, 2003;  
Amended Eff. February 1, 2006; February 1, 2005.

## SECTION .3400 – AUTOMATED DISPENSING ON DRUG SUPPLY DEVICES

### 21 NCAC 46 .3401 DEFINITIONS

For purposes of these Rules, the following terms are defined as follows:

- (1) "Automated medication system" means a robotic, mechanical or computerized device that is not used for medication compounding and is designed to:
  - (a) Distribute medications in a licensed health care facility that holds a pharmacy permit; or
  - (b) Package medications for final distribution by a pharmacist.
- (2) "Centralized automated medication system" means an automated medication system located in a pharmacy department from which medication is distributed or packaged for final distribution by a pharmacist.
- (3) "Decentralized automated medication system" means automated medication systems that are located outside of a pharmacy department but within the same institution.
- (4) "Distribution" means the process of providing a drug to an individual authorized to administer medications and licensed as a health care provider in the state of North Carolina pursuant to an order issued by an authorized prescriber.
- (5) "Medication" means a medicinal drug or proprietary preparation.
- (6) "High risk override medication" means a single dose of medication that may be removed from a decentralized automated medication system prior to pharmacist review because the Multidisciplinary Committee has determined that the clinical status of the patient would be compromised by delay.
- (7) "Low risk override medication" is a medication determined by the Multidisciplinary Committee to have a low risk of drug allergy, drug interaction, dosing error, or adverse patient outcome, and may be removed from a decentralized automated medication system independent of a pharmacist's review of the medication order or clinical status of the patient.
- (8) "Physician controlled medication" is a medication ordered, prepared or administered by a physician.

*History Note: Authority G.S. 90-85.6; 90-85.32; 90-85.33;  
Eff. April 1, 1999;  
Amended Eff. February 1, 2005; August 1, 2002;  
Recodified from 21 NCAC 46 .1814 Eff. February 1, 2005.*

**21 NCAC 46 .3402**  
**MEDICATION SYSTEMS**

**GENERAL REQUIREMENTS FOR THE USE OF AUTOMATED**

General Requirements for the Use of Automated Medication Systems include the following:

- (1) The consultant pharmacist of record or pharmacist-manager shall be responsible for:
  - (a) Maintaining a record of each transaction or operation;
  - (b) Controlling access to the system;
  - (c) Maintaining policies and procedures for:
    - (i) Operating of the automated medication system;
    - (ii) Training personnel who use the automated medication system;
    - (iii) Maintaining patient services whenever the automated medication system is not operating; and
    - (iv) Defining a procedure for a pharmacist to grant access to the medication in the system or to deny access to the medication in the system.
  - (d) Security of the system;
  - (e) Assuring that a patient receives the pharmacy services necessary for good pharmaceutical care in a timely manner;
  - (f) Assuring that the system maintains the integrity of the information in the system and protects patient confidentiality;
  - (g) Establishing a comprehensive Quality Assurance program;
  - (h) Establishing a procedure for stocking or restocking the automated medication system; and
  - (i) Insuring compliance with all requirements for packaging and labeling.
- (2) A pharmacist shall perform prospective drug use review and approve each medication order prior to administration of a medication except a high risk override medication, a low risk override medication or a physician controlled medication.
- (3) A pharmacist shall perform retrospective drug use review for a high risk override medication and a low risk override medication.

*History Note:* Authority G.S. 90-85.6; 90-85.32; 90-85.33;  
Eff. February 1, 2005.

(a) The consultant pharmacist of record or pharmacist-manager shall convene or identify a multidisciplinary committee, which is charged with oversight of the decentralized automated medication system.

- (1) Include at least one pharmacist;
- (2) Establish the criteria and process for determining which medication qualifies as a high risk override medication or a low risk override medication in a decentralized automated medication system; and
- (3) Develop policies and procedures regarding the decentralized automated medication system.

*History Note:* Authority G.S. 90-85.6; 90-85.32; 90-85.33;  
Eff. February 1, 2005.

**21 NCAC 46 .3404**  
**SYSTEM**

**STOCKING OR RESTOCKING OF AN AUTOMATED MEDICATION**

(a) Medications in an Automated Medication System shall be stocked or restocked by a pharmacist or by a pharmacy technician supervised by a pharmacist as satisfied by Paragraph (d)(2) of this Rule.

(b) The stocking or restocking of an automated medication system shall follow one of the following procedures to ensure correct medication selection:

- (1) A pharmacist shall conduct and document a daily audit of medications placed or to be placed into an automated medication system that may include random sampling.
- (2) A bar code verification, electronic verification, or similar verification process shall be utilized to assure correct selection of medication placed or to be placed into an automated medication system. The utilization of a bar code, electronic, or similar verification technology shall require an initial quality assurance validation, followed by a quarterly quality assurance review by a pharmacist.

(c) The pharmacist performing the quality assurance review shall maintain a record of the quality assurance process that occurred and the pharmacist approval of the medication stocking, restocking or verification process.

(d) Medication Reuse. Medication that has been removed from the automated medication system shall not be replaced into the system unless:

- (1) a pharmacist has examined the medication, the packaging, and the labeling and determined that reuse of the medication is appropriate; or
- (2) specific medications, such as multi-dose vials, have been exempted by the Multidisciplinary Committee.

*History Note:* Authority G.S. 90-85.6; 90-85.32; 90-85.33;  
Eff. February 1, 2005.

**21 NCAC 46 .3405****CENTRALIZED AUTOMATED MEDICATION SYSTEMS**

A pharmacist utilizing a centralized automated medication system may distribute patient specific medications within the licensed health care facility without checking each individual medication selected or packaged by the system, if :

- (1) The initial medication order has been reviewed and approved by a pharmacist; and
- (2) The medication is distributed for subsequent administration by a health care professional permitted by North Carolina law to administer medication.

*History Note:* Authority G.S. 90-85.6; 90-85.32; 90-85.33;  
Eff. February 1, 2005.

## 21 NCAC 46 .3406 QUALITY ASSURANCE PROGRAM

The consultant pharmacist of record or pharmacist-manager shall be responsible for establishing a quality assurance program for the automated medication system. The program shall provide for:

- (1) Review of high risk override medication and low risk override medication utilization;
- (2) Investigation of a medication error related to the automated medication system;
- (3) Review of a discrepancy or transaction reports and identification of patterns of inappropriate use or access;
- (4) Review of the operation of the system;
- (5) Integration of the automated medication system quality assurance program with the overall continuous quality improvement program of the pharmacy; and
- (6) Assurance that individuals working with the automated medication system receive appropriate training on operation of the system and procedures for maintaining pharmacy services when the system is not in operation.

*History Note:* Authority G.S. 90-85.6; 90-85.32; 90-85.33;  
Eff. February 1, 2005.

## RECORD KEEPING

- (b) The following records shall be maintained for at least three years:
  - (1) Daily audits of stocking or restocking, if applicable;
  - (2) Daily audits of the output of a centralized automated medication system, if applicable; and
  - (3) Transaction records for all non-controlled medications or devices distributed by the automated medication system.
- (c) The following records shall be maintained for at least three years:
  - (1) Any report or analysis generated as part of the quality assurance program;
  - (2) A report or database related to access to the system or any change in the access to the system or access to medication in the system; and
  - (3) Transaction records from the automated medication system for all controlled substances dispensed or distributed.

*History Note:* Authority G.S. 90-85.6; 90-85.32; 90-85.33;  
Eff. February 1, 2005.

**21 NCAC 46 .3408 COMPLIANCE**

The consultant pharmacist of record or pharmacist-manager shall assure compliance with all requirements of the Pharmacy Practice Act and Board rules.

*History Note: Authority G.S. 90-85.6; 90-85.32; 90-85.33;  
Eff. February 1, 2005.*

## ***Item 2056 – Electronic Renewals***

The Board is moving forward by providing online renewals for 2005 renewals in several areas:

- ◆ Pharmacists
- ◆ Pharmacy permits
- ◆ Pharmacy technicians
- ◆ Durable Medical Equipment (DME) permits

While there is a small charge for this service, it does enable pharmacists and others to obtain immediate evidence of renewal and the speedy processing of their applications. This is especially important for hospital pharmacists who may be facing a visit from the Joint Commission on Accreditation of Healthcare Organizations in early 2005. There is no doubt that online renewals are the quickest and most certain way to provide evidence of current licensure.

No pharmacist renewal applications will be automatically mailed. The renewal process begins on November 1, 2004, and pharmacists should visit the Board's Web site, [www.ncbop.org](http://www.ncbop.org), and follow the prompts under electronic renewals. An immediate confirmation is available for all online renewals with certificates being mailed within approximately three days of the online process.

## ***Item 2067 – Letters of Concern, Caution, and Warning***

The North Carolina Board of Pharmacy has authorized staff to issue letters of concern, caution, or warning in certain circumstances. In cases where a dispensing error has occurred and the product has reached the patient but there is no substantial harm involved, the members have authorized the issuance of letters of concern, caution, or warning by Board staff. This would not be considered to be a disciplinary action but could be used in the disposal of cases in the future.

Such letters frequently suggest that pharmacists take a course in error prevention such as those offered at the pharmacy schools in this state. More information can be found on our Web site at [www.ncbop.org](http://www.ncbop.org).

## ***Item 2086 – Evaluation of Unit Dose Packaging Dispensed to Outpatients for Child Resistant Features***

The North Carolina Board of Pharmacy frequently receives queries from pharmacists on whether or not the unit dose packaging that is dispensed to outpatients is considered “child resistant.” Based upon the need to provide information to pharmacists on the child resistant nature of unit dose packaging dispensed to outpatients, the Board requested the assistance of Campbell University School of Pharmacy Department of Clinical Research to evaluate the matter.

In order to fulfill the requirements of dispensing medicines in packaging that meets child-resistant requirements, pharmacists may utilize the packaging described on the Board’s Web site. Of note, zip lock bags are not child resistant. To be child resistant, the reclosable bag must contain a child-resistant feature. Further, to be child resistant, blister packaging requires at least one child-resistant feature. Before using any packaging described as child resistant pharmacists should confirm with the manufacturer whether or not suitable testing has been performed.

The complete synopsis of this research can be found on the Board’s Web site at “Child Resistant Features of Unit Dose Packaging.”

**INDEPENDENT AUDITOR'S REPORT**

The Honorable Michael F. Easley  
Governor of North Carolina  
North Carolina Board of Pharmacy  
The General Assembly of North Carolina

We have audited the accompanying statement of net assets of the North Carolina Board of Pharmacy (a nonprofit organization) as of September 30, 2005, and the related statements of revenues, expenses and changes in net assets, and cash flows for the year then ended. These financial statements are the responsibility of the Board's management. Our responsibility is to express an opinion on these financial statements based on our audit. The prior year comparative information has been derived from the Board's 2004 financial statements. The financial statements of the North Carolina Board of Pharmacy as of September 30, 2004, were audited by other auditors whose report dated December 2, 2004, expressed an unqualified opinion on those statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the North Carolina Board of Pharmacy as of September 30, 2005, and its changes in net assets and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

*Blackman & Sloop*

**NORTH CAROLINA BOARD OF PHARMACY****NOTES TO FINANCIAL STATEMENTS**

Page 1 of 8

**NORTH CAROLINA BOARD OF PHARMACY**

The North Carolina Board of Pharmacy, (the “Board”) was established under Chapter 90 of the North Carolina General Statutes to maintain minimum standards for the practice of pharmacy within the State of North Carolina. The Board’s operations are funded primarily through license renewal and license examination fees.

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PRACTICES****A. Basis of Presentation.**

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting principles and reporting standards. The Board applied all applicable Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989.

All activities of the Board are accounted for within a single proprietary (enterprise) fund. Proprietary funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the cost of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges.

**B. Reporting Entity.**

GASB Codification Section 2100 has defined the governmental reporting entity to be the State of North Carolina because the State exercises oversight responsibility in that the Governor appoints the Board members, and public service is rendered within the State’s boundaries. The accompanying financial statements present only the activity of the North Carolina Board of Pharmacy. Annually, the State of North Carolina issues general purpose financial statements which include the activity of occupational licensing boards.

**C. Basis of Accounting.**

In accordance with Statement of Governmental Accounting Standards 34, which the Board implemented in 2003, the Board presents a statement of net assets, a statement of revenues, expenses, and changes in net assets, and a statement of cash flow. These statements reflect entity-wide operations of the Board. The Board has no fiduciary funds or component units.

## NORTH CAROLINA BOARD OF PHARMACY

## NOTES TO FINANCIAL STATEMENTS

Page 2 of 8

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PRACTICES**  
**(CONTINUED)**

## C. Basis of Accounting (continued).

The statement of revenues, expenses, and changes in net assets demonstrates the degree to which the direct expenses of the Board are offset by license renewal fees and permits.

The financial statements report all activities of the Board using the current financial resource measurement focus and the full accrual basis of accounting. Revenues are recognized in the accounting period in which they are earned and become measurable. Expenses are recognized when incurred, if measurable.

Operating revenues and expenses consist of those revenues and expenses that result from the ongoing principal operations of the Board. Operating revenues consist primarily of license renewal fees and permits. Non-operating revenues consist of those revenues and expenses that are related to investing types of activities and are classified as non-operating in the financial statements.

## D. Cash and Cash Equivalents.

Cash and cash equivalents consist of money on deposit with banks, and money invested in money market accounts, all of which are considered available for current use.

## E. Capital Assets.

Capital assets are stated at cost and are being depreciated over their useful lives on a straight-line basis. When an asset is disposed of, the cost of the asset and the related accumulated depreciation are removed from the books. Any gain or loss on disposition is reflected in the earnings for the period.

## NORTH CAROLINA BOARD OF PHARMACY

## NOTES TO FINANCIAL STATEMENTS

Page 3 of 8

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PRACTICES**  
**(CONTINUED)**

## F. Vacation and Sick Leave.

Board employees may accumulate up to thirty days earned vacation and such leave is fully vested when earned. On December 31<sup>st</sup>, accrued vacation in excess of the limit is transferred and added to sick leave balances.

The Board's sick leave policy provides for an unlimited accumulation of earned sick leave. Since the Board has no obligation for the accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

## G. Net Assets.

Invested in capital assets: This component of net assets consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Unrestricted net assets: This component of net assets consists of net assets that do not meet the definition of restricted or invested in capital assets. The Board has reserved \$200,000 of the unrestricted net assets to cover potential litigation costs.

## H. Income Taxes.

The Board is a component of the State of North Carolina and is consequently exempt from federal and state income taxes.

## I. Use of Estimates.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Accordingly, actual results could differ from those estimates, resulting in adjustments in future periods.

## NORTH CAROLINA BOARD OF PHARMACY

## NOTES TO FINANCIAL STATEMENTS

Page 4 of 8

**DEPOSITS AND INVESTMENTS**

Cash consists of checking, savings, and money market accounts at various financial institutions. The accounts are insured by the FDIC up to \$100,000. At September 30, 2005 and 2004, the Board's uninsured cash balances totaled approximately \$44,300 and \$180,000, respectively. The Board believes there is minimal risk regarding its cash investments.

Investments consist of a certificate of deposit in a local bank. The certificate bears interest of 2.55% and matures every three months. This investment is presented at fair value.

**CAPITAL ASSETS**

Capital asset activity for the Board for the year ended September 30, 2005, was as follows:

	Cost 9/30/04	Acquisitions	Disposals	Cost 9/30/05
Capital assets:

Total capital assets, net	<u>\$ 2,312,870</u>	<u>\$ (130,157)</u>	<u>\$ -</u>	<u>\$ 2,182,713</u>

**NOTE RECEIVABLE**

In December 1989, the Board entered into a split-dollar life insurance agreement with its executive director, who is the insured and owner of the policy. The policy owner paid a portion of the premium equal to the value of the economic benefit determined in accordance with applicable IRS revenue rulings. The Board paid the balance of the premium.

The agreement provided the Board shall be entitled to recover the amount of premiums paid out of the build-up cash value upon termination of the agreement or out of the proceeds upon the death of the insured. As security for repayment, the Board is a collateral assignee of the policy to the extent of any such unreimbursed premium.

Effective January 1, 2004, the Internal Revenue Service changed the requirements for split-dollar life insurance agreements. At that date, the cash surrender value recorded on the financial statements was converted to a note receivable from the insured.

## NORTH CAROLINA BOARD OF PHARMACY

## NOTES TO FINANCIAL STATEMENTS

Page 6 of 8

**NOTE PAYABLE**

The Board borrowed \$1,384,000 during the 2003 fiscal year to purchase their current office condominium. The note has a fixed interest rate of 4.5% and requires 59 monthly installments of \$8,806, with final payment due of all unpaid principal and interest on July 2, 2008.

Note payable at September 30, 2005	\$ 1,287,915
Less current portion	<u>(47,924)</u>
Long-term portion at September 30, 2005	<u><u>\$ 1,239,991</u></u>

Principal maturities are as follows:

<u>Year ending September 30,</u>	
2006	\$ 47,924
2007	50,157
2008	<u>1,189,834</u>
	<u><u>\$ 1,287,915</u></u>

**OFFICE SPACE LEASE**

The Board leases office space in Newton, North Carolina under a three year operating lease which expires June 30, 2006. Rental expense as of September 30, 2005 was \$9,600. Future obligations under the lease through September 30, 2006, is \$7,200.

**RETIREMENT PLAN**

## A. North Carolina Licensing Boards Retirement Savings Plan.

The Board contributes to the North Carolina Licensing Boards Retirement Savings Plan ("Plan"), a defined contribution plan. The Plan has been established to provide retirement benefits for employees of State boards or agencies who have not elected by resolution to cause their employees to be eligible to become members of the Teachers' and State Employees' Retirement System and for employees hired after July 1, 1983, by an electing board or agency. The Plan is administered by an administrative committee

## NORTH CAROLINA BOARD OF PHARMACY

## NOTES TO FINANCIAL STATEMENTS

Page 7 of 8

**RETIREMENT PLAN (CONTINUED)**

with authority to amend the Plan, comprised of the executive directors of the participating boards and agencies.

Participating employees must contribute at least six percent of their gross compensation and the Board matches those contributions 100%. The employees' contributions are immediately 100% vested; the Board's matching contributions are 100% vested after five years of credited service. For vesting purposes, an employee must complete 1,000 hours of service each Plan year.

Each participant's account is credited with their individual contributions, the Board's matching contributions and Plan earnings and forfeitures of terminated participants' non-vested accounts. Allocations are based on participant earnings and account balances, as defined. Each participant is entitled to the benefit which can be provided from the participant's account.

Participants may retire with fully vested benefits at age 65, or at age 55 after completing five years of service. Upon termination of service, participants receive the vested value of their account in a lump-sum distribution.

Contributions to the Plan for the years ended September 30, 2005 and 2004, totaled \$86,026 and \$74,293, which consisted of \$40,783 and \$30,628, from the Board and \$45,243 and \$43,665, from employees, respectively.

**B. Teacher's and State Employees' Retirement System**

For employees employed prior to July 1, 1983, the Board contributes to the statewide Teachers' and State Employees' Retirement System ("TSERS"), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. TSERS provides retirement benefits to plan members and beneficiaries. Article 1 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. The Teachers' and State Employees' Retirement System is included in the Comprehensive Annual Financial Report ("CAFR") for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for TSERS. That report may be obtained in writing from the Office of State Controller, 3512 Bush Street, Raleigh, North Carolina, 27609, or by calling (919) 981-5454.

## NORTH CAROLINA BOARD OF PHARMACY

## NOTES TO FINANCIAL STATEMENTS

Page 8 of 8

**RETIREMENT PLAN (CONTINUED)**

Plan members are required to contribute 6% of their annual covered salary and the Board is required to contribute at an actuarially determined rate. The rate was 6.82% of payroll as of September 30, 2005. The contribution requirements of plan members and the Board is established and may be amended by the North Carolina General Assembly. Contributions to the Plan for the years ended September 30, 2005 and 2004, totaled \$36,963 and \$30,797, which consisted of \$18,573 and \$11,765, from the Board and \$18,390 and \$19,032, from employees, respectively.

**RISK MANAGEMENT**

The Board is exposed to various risks of loss related to torts; theft of, damage to, and the destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Board protects itself from exposures to loss through the purchase of commercial liability insurance. Tort claims of up to \$500,000 are self-insured under the authority of the State Tort Claims Act. In addition, the State provides an additional \$5,000,000 public officers' and employees' liability insurance via contract with a private insurance company.

**RECLASSIFICATIONS**

Certain items in the September 30, 2004, report have been reclassified to conform to current year classifications. Such reclassifications have no effect on previously reported net assets.

# NORTH CAROLINA BOARD OF PHARMACY

## CENSUS OF REGISTRANTS FY 2005

### PHARMACISTS

Total number of pharmacists licensed and on roster as of September 30, 2005.	10494
Total number of pharmacists residing in North Carolina .....	8167
Inactive pharmacists residing in North Carolina .....	1403
Total number of pharmacists residing outside of North Carolina .....	2327
Total number deceased in FY 2005 .....	7

### Breakdown of Employment in-state

Retail Pharmacy - Chain .....	2819
Retail Pharmacy - Independent .....	1294
Hospital Pharmacies .....	1754
Nursing Homes .....	121
Government, Health Departments and Teaching .....	100
Pharmaceutical Manufacturing & Wholesale Sales .....	136
Other .....	1112
Sales and Research .....	141
Unknown Position .....	690

### Age and Gender of Pharmacists in North Carolina

Under 30 years of age .....	908
30 - 39 years of age .....	2498
40 - 49 years of age .....	2010
50 - 59 years of age .....	1677
60 - 65 years of age .....	482
Over 65 years of age .....	592
 In-state Pharmacists - Male .....	 3808
In-state Pharmacists - Female .....	4359

### PHARMACIES

Total in-state Pharmacy permits on roster as of September 30, 2005 .....	2215
Retail Pharmacy - Chain .....	1048
Retail Pharmacy - Independent .....	590
Hospital Pharmacies .....	174
Nursing Homes .....	38
Health Departments .....	91
Free Clinics .....	34
IV Infusion .....	42
Others .....	198
Total out-of-state Pharmacy permits on roster as of September 30, 2005 .....	341

### DEVICE AND MEDICAL EQUIPMENT

Total DME permits on roster as of September 30, 2005 .....	647
--	-----

### DISPENSING PHYSICIANS

Total Physicians registered to dispense as of September 30, 2005 .....	572
--	-----

### PHYSICIAN ASSISTANT and NURSE PRACTITIONER

Total PA's and NP's registered to dispense as of September 30, 2005 .....	192
---	-----

### PHARMACY TECHNICIANS

Total Pharmacy Technicians registered as of September 30, 2005 .....	9905
--	------
